

### MAKING IT EASY

Lube and fuel filters are changed together, instead of ordering multiple part numbers you only need one kit!

### GREAT RANGE

Most popular medium and heavy-duty, off-road platforms are available!

### THE RIGHT KIT

Kit contents and cross reference information to the OE parts are shown on the carton, making it easy to select the right kit.

### PEACE OF MIND

Designed to meet or exceed OE requirements, our products are built to the highest standard, utilising quality materials and backed by a full aftermarket warranty.

### QUALITY GUARANTEED!

When you buy Donaldson you can be certain you are buying the best. Our aftermarket warranty provides cover for 1 year from installation or, for the normal service interval period as stated in the equipment manufacturers service manual (whichever occurs first). The use of aftermarket filtration will not void engine and equipment manufacturers' warranties.

## Think filters. Think Donaldson.

### DURABLE AND RELIABLE LIQUID FILTRATION TECHNOLOGY

Donaldson lube and fuel filters are designed to keep fluids clean by capturing contaminants and abrasive particles. Unfiltered liquids may result in premature wear of expensive engine components. Quality reliable filtration is an essential component of maintaining sophisticated, modern diesel engines.

## TOOLBOX
